

Polishing and Grinding Machines

For Better Visibility of
Sample on Microscope
and Hardness Tester

- ❖ **Pre-Grinder**
- ❖ **Manual Grinder & Polisher**
- ❖ **Automatic Grinder & Polisher**
- ❖ **Fully Automated Systems**
- ❖ **Electrolytic Polisher & Etcher**

PRECISED STRENGTH TESTING MACHINE

Testing becomes very easy time saving and accurate with our hardness testers with their various automation options e.g. motorized stage, autoreading Softwares, Joystick, Auto focus, Control Panels, Touch Screen Panels with customized Programs and customized report formats.

We can provide Testers for Various Loads setups, Scale Configurations and multiple report formats as per Customers requirements. Our Standard Model List is mentioned.

SINGLE DISK POLISHING MACHINE

METAPOL-SFM

Single Disk Polishing Machine with Fixed RPM

METAPOL-SVM

Single Disk Polishing Machine with Variable RPM

METAPOL-SVA

Single Disk Polishing Machine with Variable RPM and Automatic Head

DOUBLE DISK POLISHING MACHINE

METAPOL-DFM

Double Disk Polishing Machine with Fixed RPM

METAPOL-DVH

Double Disk Polishing Machine with Variable RPM and Delta HMI

METAPOL-DVA

Double Disk Polishing Machine with Variable RPM, Delta HMI and Automatic Polishing Head

FOUR DISK POLISHING MACHINE

METAPOL-EXCEL

Four Disk Polishing Machine with Variable RPM and Delta HMI

METAPOL-PREMIUM

Four Disk Polishing Machine with Variable RPM, Delta HMI and Automatic Polishing Head, movable over all four Disks
